

Smart Home System and Video Doorbell

This system provides smart home solutions to offer our customers control over appliances and the home environment, providing comfort in life, as well as security and energy saving. All devices are controlled at the touch of a button on your smartphone.

- 1080p HD video doorbell with enhanced features that let you see, hear, and speak to anyone from your phone, tablet, or PC.
- Enjoy improved motion detection, privacy zones and audio privacy, and 2.4GHz/5GHz wifi connectivity.
- Receive mobile notifications when anyone presses your doorbell or triggers your built-in motion sensors.

It detects motion and sends you alerts instantly

Get notified when the camera detects any movement outside and you can watch a video of that movement to check everything out. Also, you can customize your own experience by setting motion zones to capture only what happens in the area you choose.

Comforts

Our smart home solutions make your life easier: automatic connection between devices simplifies your daily activities; You don't have to lift a finger and you'll always be in control, wherever you are.

Security

There are different smart cameras ready to secure and protect your home. You will be able to detect the movement of people outside, and receive alerts when an emergency occurs.

Energy saving

There will be no more wastage with our systems. Save energy by linking appliances in your home into a smart grid to control your energy bills.
